Web Ontology Language implementation
of the
New Zealand Profile
of
ISO 19160-1:2015 Addressing

This is a Web Ontology Language (OWL) version of the New Zealand Profile of ISO 19160-1:2015 Addressing.

The source of this ontology is the document "Address: Conceptual Model for New Zealand The New Zealand Profile of ISO 19160-1:2015 Addressing – Part 1: Conceptual Model", online at http://standards.iso.org/iso/19160/-1/NZ Profile Specification 20151203.pdf.

This profile is published using the persistent web address (URI):

- **http://linked.data.gov.au/def/iso19160-1-address-nz-profile**

Note that an OWL version of the ISO standard is also published:

- http://linked.data.gov.au/def/iso19160-1-address
